

Community of Practice webinar: Citizen and stakeholder engagement in climate adaptation

Date: Thursday, 27th February Time: 10:30 – 12:00 CET Platform: Zoom

Description

Citizen and stakeholder engagement plays a key role in climate risk assessment and adaptation planning. This webinar will present key resources and insights to support regional and local authorities in engaging citizens and stakeholders throughout these processes. The session will feature:

- A presentation on available tools and guidance for engagement strategies.
- First-hand experiences from practitioners through short pitch presentations.
- A panel discussion exploring challenges, lessons learned, and best practices in stakeholder engagement.
